UNDERGRADUATE

Information Retrieval
Operating Systems
Computer Architecture
Functional Programming
Computer Graphics
Data Structures & Algorithms

SKILLS

PROGRAMMING
Languages:
C • C++ • Python
Development:
HTML5 • CSS3 • Sass • Node.js •
Express.js
Frameworks:
Next.js 14 • React.js • Typescript • jQuery
• Bootstrap • TailwindCSS • Styled
Components
Databases:
SQL • MySQL • MongoDB • Firebase
Familiar:
AS3 • iOS • Android • PHP

STRENGTHS

Programming & Decision Making
Analyzing situations comprehensively for
the best solutions. Communication
Skills
Effective communication with team
members, clients, and strangers. Eager to
Learn
Curiosity-driven to acquire new skills.

EXPERIENCE

NULLCLASS | Full Stack Developer Intern
Nov 2022 - Dec 2022
- Built and deployed a **Stack Overflow** clone using **MERN stack**.
- Integrated **Chatbot** and **Stack Overflow community**.
- Utilized **MongoDB** and **Firebase** databases.

TECHNOHACKS EDUTECH | Machine Learning Intern
Sep 2023 - Sep 2023
- Worked on machine learning projects: Diabetes prediction, IRIS flower classification, and Wine quality prediction using Google Colab.

FREELANCE PROJECTS | Full Stack Developer
http://unchiudaanclasses.com/
- Developed a full-stack website using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- Deployed on Ubuntu and Linux servers. Added PWA for enhanced user experience.

Mahavbir-agency E-commerce Website
- Created a full-stack e-commerce website using **Next.js 14**, **React**, **Tailwind**, **Prisma**, **MySQL**, and a CMS.

PROJECTS

THE CODEBIRD - COLLEGE CODING CLUB
- Developed and maintained the official website (**www.thecodebird.in**) using **React**, **MongoDB**, and **Express**.
- Created dedicated sections for various domains (**Web Dev**, **Android**, **AI/ML**, etc.).
- Implemented an intuitive **admin panel** for content management.

EMERGECARE | Hospital Management Website
- Developed a dynamic hospital management website with patient registration and appointment scheduling features using **React**, **MongoDB**, **HTML**, **CSS**, **Sass**, and **Express**.
- Integrated "Find Hospitals Near Me" functionality.

MINI JS | Personal Mini Projects
- Created **50+ mini JavaScript** web projects, both standalone and using **React.js**, to showcase various skills and concepts.
- Implemented Responsive UI design and received **100+ stars** on GitHub.

ACHIEVEMENTS

- **Kshitij, IIT Kharagpur** | Campus Ambassador | Organized Kshitij event at our college.
- **The Code Bird** | Web Dev Lead | Nov 2022 - Present • Mentored 50+ Students in web development.
- Solved 300+ DSA questions on GFG, LeetCode, Coding Ninja.
